

Press Release

European Network of Transmission System Operators for Gas (ENTSOG) launches Stakeholder Support Process

(Brussels, 7 November 2014, PR075-14) Today the European Network of Transmission System Operators for Gas (ENTSOG) launches the Stakeholder Support Process (SSP) for the Refined Draft Incremental Proposal and the Refined Draft Network Code on the Harmonised Transmission Tariff Structures for Gas (TAR NC)

The objective of the SSP is to allow stakeholders to express their degree of support for the Refined Draft Incremental Proposal and/or the Refined Draft TAR NC which both have been amended after the consultation on the initial drafts conducted earlier this year. The [Refined Draft Incremental Proposal](#) and the [Refined Draft TAR NC](#) can be found on the ENTSOG web site.

The SSP starts today and will end Friday 21 November 2014, 13:00 CET. Stakeholders are invited to express their opinion on given sections/chapters via a respective questionnaire. The questionnaire for the Refined Draft Incremental Proposal can be found [here](#) and for the Refined Draft TAR NC [here](#).

For material from the previous SJWSs and other relevant background documents the ENTSOG web site should be consulted ([Incremental Capacity site](#) or the [TAR NC site](#)).

Should you require any further information regarding the SSP please contact:

- Mark Wiekens (+32 2 894 5108, mark.wiekens@entsog.eu) for Incremental Proposal;
- Malcolm Arthur (+32 2 894 5111, malcolm.arthur@entsog.eu) for TAR NC;
- Jan Ingwersen (+32 2 894 5115, jan.ingwersen@entsog.eu) on general issues in relation to the network codes.

Editorial notes

- > ENTSOG was founded on 1 December 2009 in line with Regulation (EC) 715/2009. The current number of Members, Associated Partners and Observers can be found [under this link](#).
- > In line with Articles 6, 7 and 8 of the Regulation (EC) 715/2009, ENTSOG has the task of formulating network codes in a number of areas and of adopting various communications: a non-binding community-wide Ten-Year Network Development Plan on biennial basis; Winter and Summer Supply Outlooks; common network operation tools; recommendations relating to the coordination of technical cooperation between community and third-country-TSOs; annual work programmes and annual reports.
