

ENTSOG Publication

To ensure the project data are updated at least once per TYNDP or GRIP Publication, ENTSOG will, once per publication, reset the project data status to "Draft". Project having "Draft" status are not taken into account in a publication. All that is needed for project to be approved is that is saved or re saved for a given publication and that all the controls are passed. If your project is not approved, that is because some control were not passed. Please re check the form.

Comments on the Project in the context of the current publication.

This represents a simulation of the submission of a TRANSMISSION project in Liechtenstein.

Project of Common Interest(PCI) Label

Is your project in the currently legal PCI list ?

☒

PCI Name

Create a PCI Application

What are the priority corridors where the project is assigned to ?

☐ BEMIP Gas

☒ NSI East Gas

☐ NSI West Gas

☐ SGC

Do you intend to apply for PCI label in the next PCI round?

Yes

If Yes, In the case CAPEX has been indicated as confidential in General Information section, Please section one of the following

(1) I provide alternative costs estimates based on reference costs

If 1) Alternate CAPEX (in mlns EUR)

900

If 1) describe the reference used

from national reference costs (example)

Do you confirm your intention to apply for the PCI round as indicated during the Project Data Collection?

Yes

Was your project part of previous PCI Lists?

PCI List 2015

Does your project fulfill the PCI general criteria as defined in Reg. 347/2013 Art.4 ?

☒

Which specific criteria are fulfilled by your project ?

☒ Market Integration

☐ Security of Supply

☐ Sustainability

☒ Competition

Please justify your answer.

The project fulfills the criteria of makret integration and competition since allows to connect tow countries and their markets ensuring.....

Please indicate the name of your representative in charge of the PCI process

Name_PCI_Representative

Please indicate the position of your representative in charge of the PCI process

Position_PCI_Representative

Please indicate the e-mail address of your representative in charge of the PCI process

email @Email

Please indicate the phone number of your representative in charge of the PCI process

Phone number

Is the project also part of the latest Energy Community PECE or PMI list?

☐

Variant for Modelling

Variant Name	Variant Description	Considered for Modelling

Please indicate the expected load factor of your pipeline on yearly basis

65 % 

Is the proposed project the result of the demand assessment in the context of the Incremental Capacity Process?

Yes 

If yes, please provide more details

According to the provisions of the CAM NC, the TSOs shall assess the market demand for incremental capacity. The main aim of the Demand Assessment Report (DAR) is to identify whether there is a need for incremental capacity projects or not. This project is the result of the DAR 

if yes, Please provide any available link to DAR

no link available 

Gasification

In line with the definition of Gasification provided in the Handbook, does your project contribute to the gasification of a country or the gasification of a specific area not reached yet by gas?

Yes, it contributes to the gasification of a country not yet reached by natural gas 

Cross Border Cost Allocation and Financial Assistance

Does your project have a CBCA decision by NRAs or ACER ? Select one or more

- ☒ Yes, we have submitted an investment request and have received a decision
- ☒ No, we have submitted an investment request, but not received a decision yet
- ☐ No, we have not submitted an investment request yet, but we do plan to submit it
- ☐ No, we have not submitted an investment request yet, and we do not plan to submit it
- ☐ No, we have not submitted an investment request yet, and we have not yet decided whether we will submit or not

(if option 1, 2 or 3) When the investment request was submitted/or you plan to submit it?

10/08/2017 

If option 1), when was the decision taken?

01/01/2018 

If option 1), please provide CBCA Decision Website

www.CBCAwebsite.com  Please provide a valid URL starting with "http://"

If option 1), please list the countries identified from the CBCA decision as net benefiting countries

- ☐ Great Britain
- ☐ Greece
- ☒ Hungary
- ☒ India
- ☐ Ireland
- ☒ Monaco
- ☒ Montenegro
- ☒ Morocco
- ☐ National Production

If option 1), please list the countries identified from the CBCA decision as net cost bearers

Please provide any additional comments

For Phase 2 investment request was submitted and CBCA decision was taken while for Phase 3 investment request was submitted but no CBCA decision taken yet. The investment request for Phase 2 was submitted in 28th January 2018.

Have you already applied for financial support from the Connecting Europe Facility (CEF)

- ☒ (1) Yes, we have applied for CEF and we have received a decision
- ☐ (2) Yes, we have applied for CEF, but we have not received a decision yet
- ☐ (3) No, we have not applied for CEF

[If options 1) or 2) in above box list] Did your project request Union financial assistance in the form of

Yes 

1/31/2018

Projects -

grants for studies?

If yes, please indicate the amount

100

If options 1) or 2) Did your project request Union financial assistance in the form of grants for works?

No

If yes, please indicate the amount

If option 3), Do you intend to apply for financial support from the Connecting Europe Facility?

- ☐ Yes, for studies only
- ☒ Yes, for work only
- ☐ Yes, for studies and works
- ☐ No, we do not plan to apply
- ☐ No decision yet taken

Have you received any financial support from funding programmes other than CEF at European, regional or national level?

No

Please Provide details

Here you can include any comment on CEF or any other funding programme

Please Provide any further relevant details

Barriers in Implementation

Regulatory Framework

- ☐ Low rate of return
- ☒ Low or zero-priced short-term capacity
- ☒ Capacity quotas
- ☐ Lack of proper transposition of Eu regulation
- ☐ Other please specify

Permit granting

Financing

- ☐ Availability of funds and associated conditions
- ☐ Amortization rates
- ☐ Other please specify

Political

Market

- ☒ Lack of market support
- ☐ Lack of market maturity
- ☐ other, please specify

Other Barriers, please explain

In TYNDP 2017 there is a dedicated chapter on Barriers to investment that may help you filling this section.

Which incentives would support your project implementation

Have you received additional regulatory incentives for your PCI project

Legal Notice

By clicking here, the Project Promoter, hereby acknowledges, confirms or undertakes as relevant:

- 1) that the Project is submitted in the name and on behalf of the Project Promoter as identified in this form;
- 2) that the only mission of ENTSG, in the framework of the Projects data collection, is to provide the Project Portal for the data collection procedure, this mission including the issuance by ENTSG of understandable explanation in the form of the Project Submission Handbook and other Supporting Documents;
- 3) that ENTSG has provided all necessary means within the Project Portal to enable the Project Promoter to monitor the integration of the Project submissions;
- 4) that it has read and understood the Project Submission Handbook and the other supporting documents made available by ENTSG as well as the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018" and is aware of the consequences resulting from this documentation;
- 5) that the information submitted by the project promoters will be treated in accordance with the applicable regulations as well as with the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018"
- 6) that the related data hereby submitted is exhaustive, accurate and up-to-date at the moment of the data submission and that ENTSG cannot be held liable for the failure of the accuracy, the correctness and/or the completeness of the data submitted via the Project Portal which is not attributable to ENTSG. The Promoter consequently undertakes to indemnify, hold harmless and defend ENTSG from and against any claim, demand, cause of action, expense or liability arising out of any not exhaustive, not accurate and not up-to-date data submission which was directly and solely attributable to the Promoter;
- 7) to submit and/or modify data during the scheduled data collection timeframe;
- 8) to actively monitor its data submissions and takes corrective actions in line with the automatic messages received within the Portal, resulting from the predefined Validation Rules (part of the Project Submission Support Documents);
- 9) to take corrective actions when ENTSG contacts by e-mail the Promoter with explanation by ENTSG of the observed inconsistency or error based on the part of the Monitoring Activities (part of the Project Submission Support Documents) ENTSG undertakes to check;
- 10) to be aware (i) how ENTSG models the Promoter's topology in the network model, by checking the Report on Operator Topology and (ii) of the possibility to contact ENTSG as defined in the Project Submission Handbook, should the topology deemed to be inappropriate;

11) to be aware of the result of its capacity submission before and after the application of the lesser-of-rule (LoR) by checking the Reports Capacities Before/After LoR. It will in particular actively monitor the projected capacities resulting from the Project Promoter's data submission within the Data Portal for the duration of ENTSOG data collection exercises and to take action in the form of coordinating with the adjacent operator(s) and/or adjusting the submitted data when deemed necessary by the Project Promoter and adjacent operator(s), in order to reduce as far as possible any mismatch in projected capacity between the Project Promoter and adjacent operator(s) if applicable;

12) that ENTSOG cannot be held responsible in any way whatsoever for any impacts which may derive from the decisions of any bodies/authorities taken on the basis of the analysis prepared by ENTSOG and realized with data submitted through the Project Portal;

13) that the registered User will be required to provide personal data for administrative purposes only and for the purposes of infrastructure project data submission related issues. Any personal data will be used by ENTSOG to the extent legally authorised and complying with the law. ENTSOG will not use any personal data supplied for the above purpose for any marketing or sales activities or release the data to a third party;

14) that the information submitted by the project promoters will be treated accordingly with the provision of the ENTSOG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018". However, with regards to CAPEX and OPEX information, ENTSOG shall disclose such data if required by Court. In this case ENTSOG will inform as soon as possible the Promoter of that request and of the concerned data;

15) that, unless differently specified in the ENTSOG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018", information and data submitted through this Project Portal in the framework of Regulations 715/2009 and 347/2013 will be treated as non-confidential by nature, will be published in the TYNDP, as it has been the case during previous TYNDPs as well and could be transmitted to ACER, EC and NRAs as the case may be.
