

Press Release

ENTSOG publishes Practical Implementation Document for project inclusion in the Ten-Year Network Development Plan 2020

(Brussels, 30 April 2019, PR0182-19) **ENTSOG has published today the ENTSOG Practical implementation document (PID) for guidance on project inclusion in the 10-Year Network Development Plan (TYNDP) 2020.**

The PID provides guidance to the project promoters on the procedural steps, and administrative and technical considerations project promoters are requested to comply with for project inclusion in the TYNDP 2020, which is published every two years.

The document should be read in conjunction with the European Commission guidelines document on how the TYNDP document should be developed¹ (available [here](#)). This Commission Recommendation provides the general framework for the structure, principles, adoption, revision and application of the PID.

The Project Collection for TYNDP 2020 is envisaged to start in the second half of May 2019. ENTSOG will provide more information to project promoters on this process at the beginning of May with planned timeline and the submission process.

The TYNDP 2020 Practical Implementation Document is available on the ENTSOG website, [here](#).

Should you require any further information please contact Ms. Carmel Carey at ENTSOG.Communications@entsog.eu

¹ "Commission Recommendation on Guidelines on equal treatment and transparency criteria to be applied by ENTSO-E and ENTSOG when developing their TYNDPs as set out in Annex III 2(5) of Regulation (EU) No 347/2013" adopted by the European Commission on 24 July 2018.

Editorial notes

- > ENTSOG was founded on 1 December 2009 in line with Regulation (EC) 715/2009. The current number of Members, Associated Partners and Observers can be found [at this link](#).
- > In line with Articles 6, 7 and 8 of the Regulation (EC) 715/2009, ENTSOG has the task of formulating network codes in a number of areas and of adopting various communications: a non-binding community-wide Ten-Year Network Development Plan on biennial basis; Winter and Summer Supply Outlooks; common network operation tools; recommendations relating to the coordination of technical cooperation between community and third-country-TSOs; annual work programmes and annual reports.
