

Guarantees of Origin

Introduction

Malcolm Arthur

Business Area Manager – Market

Madrid Forum work

Madrid Forum Work Areas

Task attribution – Madrid Forum participants take the lead

Analyze cost of transition

Quantify CCS/CCU potentials (IOGP)

Interlinkage of electricity and gas (ENTSOs)

Decommissioning principles (CEER)

Analyze low-carbon gases potentials: domestic production and import

Methane leakages in full value chain (GIE)

Flexibility sources portfolio and potentials (IFIEC)

TSOs DSOs roles in contestable activities (CEER)

Unify terminology (CEDEC)

Gas quality standardization (CEN)

EU Certification system for renew and decarb gases (GIE/ENTSOG)

A green L-shaped graphic consisting of two thick bars meeting at a right angle.

What are we trying to achieve?

Overall aim of the work stream

- > Develop recommendations on how to implement an EU wide Guarantees of Origin (GO) scheme for renewable ***and low-carbon gases***
- > To provide initial recommendations to the 32nd Madrid Forum

Thank You for Your Attention
