

# ENTSOG IS RECRUITING!

We are seeking a candidate for the ENTSOG System Operations Team

## INTEROPERABILITY ADVISER

### THE ROLE OF ENTSOG

The role of ENTSOG is to facilitate and enhance cooperation between national gas transmission system operators (TSOs) across Europe to meet European Union energy goals. Its objectives are to promote the completion of the internal market for gas and stimulate cross-border trade, ensure the efficient management and coordinated operation of the European gas network and facilitate the European network's sound technical evolution.

ENTSOG is comprised of seconded staff from its members as well as directly hired staff and therefore the organisation is constantly under dynamic change and ready to offer new opportunities. The ENTSOG staff currently consists of 40+ people of 18 different nationalities, a good gender balance and representing 14 companies, which provides a unique and challenging international working environment.

### ABOUT YOUR ROLE AS INTEROPERABILITY ADVISER

The ENTSOG System Operations Area facilitates **implementation and monitoring of key EU legislation** and contributes to **further developing the EU legislation** in the areas of interoperability and transparency.

In your new role, you will contribute to our work on **monitoring and functioning of the EU-wide gas network code** in the System Operation Area as well as the **development of a new EU Energy legislation** considering the European Green

Deal with the aim to provide for a carbon-neutral Energy supply by 2050. In this respect you should be interested in how to apply the **Energy Efficiency First Principle** in the decision-making process for investments in the operation of TSOs infrastructure. In addition to feeding into the debate on the technical aspects of the energy transition, you will **focus on methane emission monitoring and reduction and carbon capture, transportation and storage of which**.
