

Press Release

ENTSOG publishes report on differences between the main terms and conditions of bundled capacity products of existing transport contract(s).

(Brussels, PR0152-18) **On 5 January 2018, ENTSOG published its report on the differences between the main terms and conditions of bundled capacity products of existing transport contracts, and the reasons for such differences.**

Article 20 of the Commission Regulation (EU) 2017/459 (the “CAM NC”) requires ENTSOG to draft and publish a template for the “main” terms and conditions “covering contractual provisions which are not affected by fundamental differences in principles of national law or jurisprudence, for the offer of bundled capacity products”.

As a first step, ENTSOG published a catalogue of these main terms and conditions, which was provided to stakeholders in May 2017 during a consultation process.

The next step required the publication of this report, which is available on ENTSOG’s website, [here](#).

Upcoming steps:

- In early 2018 ENTSOG will develop a draft template for the main terms and conditions covering contractual provisions, which are not affected by fundamental differences in principles of national law or jurisprudence;
- In April 2018 ENTSOG will launch a public consultation on the draft template;
- Based on the feedback from this second public consultation process, ENTSOG will finalise the template and submit it to ACER for its opinion by 5 July 2018;

- ENTSOG, after consideration of ACER's opinion (which is expected by 5 October 2018), will publish the final template for the main terms and conditions no later than three months from receipt of ACER's opinion;
- In 2019, TSOs may use ENTSOG's template, subject to the approval of the concerned NRA.

Should you require any further information contact Peter Hlusek, Project manager, (+32 2 894 5145, peter.hlusek@entsog.eu) or Areti Kostaraki, Legal Adviser (+32 2 894 5110, areti.kostaraki@entsog.eu).

Editorial notes

- > ENTSOG was founded on 1 December 2009 in line with Regulation (EC) 715/2009. The current number of Members, Associated Partners and Observers can be found [at this link](#).
- > In line with Articles 6, 7 and 8 of the Regulation (EC) 715/2009, ENTSOG has the task of formulating network codes in a number of areas and of adopting various communications: a non-binding community-wide Ten-Year Network Development Plan on biennial basis; Winter and Summer Supply Outlooks; common network operation tools; recommendations relating to the coordination of technical cooperation between community and third-country-TSOs; annual work programmes and annual reports.
